

UX/UI designer

About Edge

Our platform is created for gamers, managers, and league owners to bring regulation to an unregulated industry. Edge links social and gaming data to payments via smart contracts.

About the role

As our UX/UI designer you will be responsible for interpreting complex user flows and applying our brand visuals for the Edge platform. You'll work closely with the product and development team to bring ideas to life.

ESSENTIAL REQUIREMENTS:

Must have:

- Extensive UX/UI experience
- Experience working on commercial projects and working with existing brand guidelines
- A strong portfolio showing previous work and creative design solutions
- Experience with the design software Sketch
- Experience with Invision or similar tools
- The ability to work without needing hand-holding

Nice to have:

- Interest and knowledge of esports and gaming
- Experience designing for startups and SaaS applications

Please send CVs and portfolio links to recruitment@edge.gg
